# Small History INVOIC Message

End 2009 we had a request to optimize the message for a complete paperless invoicing.

## - Complete paperless invoicing

The INVOIC message needs the same info detail as it has on the paper invoice

IBAN number, S.W.I.F.T code, International Chamber of Commerce number. As well the address details of the sender and the receiving party

From Jan. 2013 there is a requirement of mentioning VAT-exempt according to article 146 of the EU VAT Directive by using 0% VAT

# Invoice Change

**On 1<sup>st</sup> January 2013 new rules on VAT invoicing came into effect**

## Significant changes to VAT invoicing rules

On 13 July 2010, The European Council adopted Directive 2010/45/EU amending the EU VAT Directive in respect to the invoicing rules. On the 1<sup>st</sup> of January 2013 these new rules on VAT invoicing will come into effect. This ITA deals with the invoicing rules as implemented in the Dutch VAT legislation and their impact on businesses, distinguishing between the following topics:

1. The issuance of invoices
2. The applicable rules
3. Time limits
4. Type of invoices and invoice details

### 4. What details must be mentioned on a VAT invoice?

- 12) in the case of an exemption (or zero-rate), reference to the applicable provision of this Directive, or to the corresponding national provision, or any other reference indicating that the supply of goods or services is exempt;

# What is missing ?

Using 0 VAT, mentioning reason for use is necessary :

**"VAT-exempt according to article 146 of the EU VAT Directive "**
