Schedule information

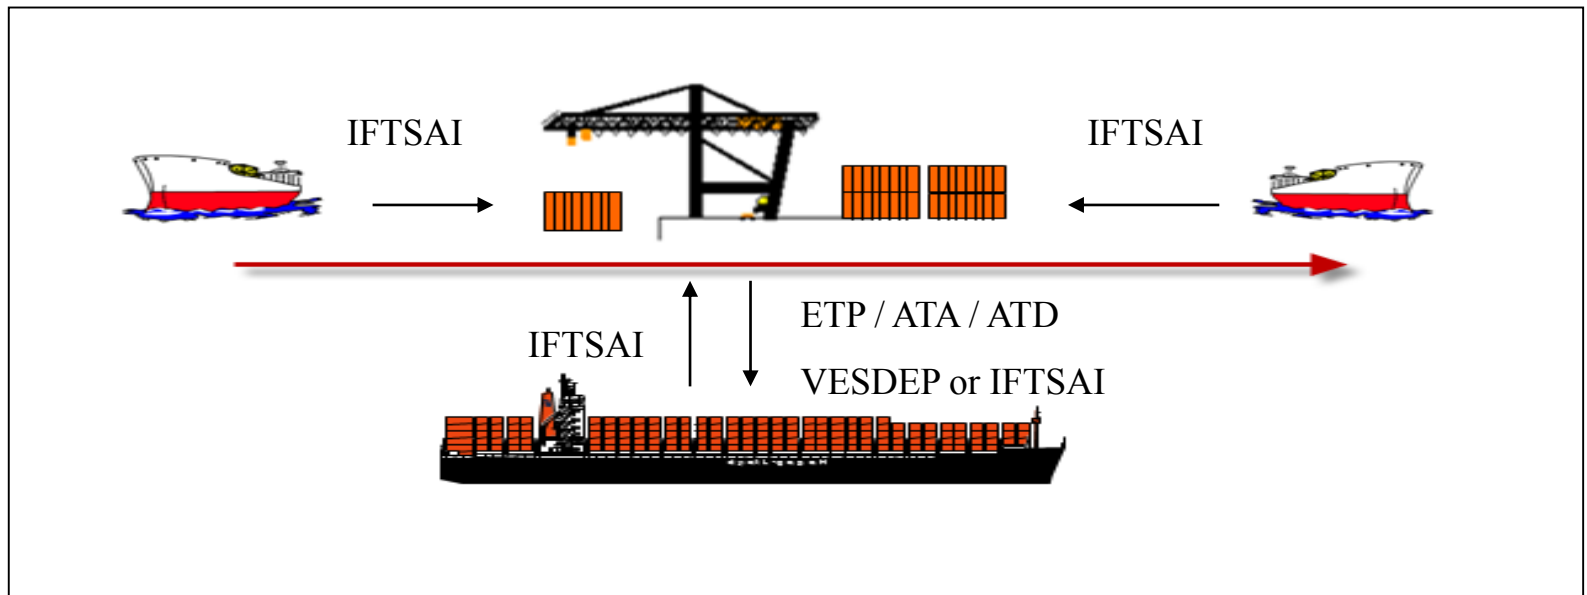

Schedule information

Schedule information

- focus on smart planning.
- Herewith there is a need of a message which helps to get a smart planning.
- Not only the IFTSAI message for Deepsea vessels but also for feeders and barges.
- Some shortcomings in the message, because of receiving the information on time.

Schedule information

Request to Add:

For Terminal Receiving:

EQD Grp7 and Grp 10 e8249 Container Status Code => 5 “Shifter”

TDT Grp4 C220 e8067 Mode of Transport => 8 “Inland water transport”
in case of schedule Barge

New code for offstandard containers at EQD, because of planning purposes.

EQD Grp 7 and Grp 10 e8053 => qualifiers to add

AA – “Ground Equipment” ??

AJ – “ flat rack”

Solution for e8053 rejected, we shall search for other solution.

Schedule information

Request to Add:

For Terminal Sending:

BGM Grp 0 1225 Message Function code => 6 “Confirmation”
include optional planned date time.

DTM Grp 6 C507 e2005 => qualifiers to add

291 – “Start date/time, planned”

292 – “Works completion date/time, planned”

393 – “Equipment pickup date/time, planned”

Thank you for your attention!!
