SMDG WORKING GROUP BAPLIE/MOVINSv3

Work in Winter 2013/14

SMDG, 63th plenary meeting, Dubai

SUBGROUP MEMBERS

- **Michael Bergen** – Interschalt
- **Jasmin Drönner** - Eurogate
- **Gerry Endenburg** – COPAS
- **Klaus Holländer** – Unifeeder
- **Peter Horstkorte** – M+B
- **Yoshi Kito** – EDI expert
- **Henrik Monberg Carlsen** – Marine Alignment
- **Jost Müller** – M+B

- **Wolfgang Neumann** – Hamburg Süd
- **Philippe Nowak** – CMA CGM
- **Alfonso Rasch-Isla** – CMA CGM
- **Robert Roestenburg** – ECT
- **Michael Schröder** – Hapag Lloyd
- **Heidi Stemler** – HHLA
- **Arthur Touzot** – CMA CGM
- **Paul Wauters** – COSMOS

- **UN/CEFACT Directory:**
  - D.13**A** revised multiply
  - Wrong code for CLRA *Exis*
  - One DMR still pending
  - Conclusion: base MIG on D.13**B**

- **New draft MIG Version 3.0.1 based on D.13B**
  - Directory related adoptions
  - Usage of data elements 1131/3055
  - Minor editorial updates

- **Marketing**
  - SMDG Newsletter#1 final version
  - Document promoting BAPLIEv3 implementation: *Why changing to BAPLIEv3* finalized

- **Implementations**
  - Preparations for implementation by several parties
  - No commited time line yet

- **Comments received**
  - Questions from PSA Singapore regarding the co-existance of BAPLIEv2 and BAPLIEv3

BAPLIEV3 ACTIVITIES

- **Collection of requirements for MOVINSv3 message design**
  - **Discussion items:**
    - *Bussiness procedures* around *Stowage Instructions*
    - Shipping lines' requirements vs. Terminals' requirements
    - Degree of binding for *Stowage Instructions* received by MOVINS
    - Weight groups
- **Next steps:**
  - **Finalize Design Requirements**
  - **Transform requirements into design of Edifact message**
  - **Include new features from BAPLIEv3**

- **General**
  - Update of layout for publishing
- **HANDLING**
  - No additions
  - (change of 1 code for technical reason)
- **BLOCKING**
  - No change
- **DGATT (4 code lists)**
  - No change

CODE LISTS

(Code lists LINES and TERMANLS are maintained by SMDG's secretariat)

- **SMDG - Overview on the flow of Edifact messages in maritime industry**
  - **Business procedures**
  - **Parties involved**
  - **Message(s) sent/received by which party in the business process**
  - **Thank you Paul!**

CONTAINER INFORMATION FLOW

Contribution by Paul Wauters

- Watching SMDG recommendation#1
  - ISO is aware of change request for 9711, but decisions are currently postponed
- Drafting SMDG recommendation#2
  - Recommended prefix in case container identification is purely numerical
- Usage of data elements 1131 and 3055 in Edifact messages
  - Issue brought up in context of reviewing MIG BAPLIEv3.0
  - Still under discussion

OTHER ISSUES

Other issues discussed in metings

SUMMARY

There have been 5 (e-) meetings taken place since Rotterdam. Many thanks to all subgroup members for their contributions and our hosts for providing localities and technical support for e-meetings.

Let's keep up with our good work!
