# Subgroup BAPLIE/MOVINS

Chair Jost Müller
Working group activity report Oct. 2015 -Apr. 2016

SMDG Plenary Meeting
Copenhagen, 19/20. April 2015

Latest BAPLIE MIGs

BAPLIE versions 2.2.1 and 3.1.1 :

- No functional changes compared to version 2.2/3.1 – just editorial amendments

Status of VGM Implementations

First test messages for BAPLIEv2.2 have been received.

Test messages can be checked in the SMDG validation portal.

Available VGM upgrades of on-board and planning software (status April 2016):

Interschalt/Seacos (Macs3), Müller+Blanck (C4-OBI), Kockumsonics (Loadstar, Easeacon,Loadmaster), …

Non-VGM issues

- Amendment 3 of ISO 6346 for containers with reduced stacking and racking capabilities
  → additional size-type codes

- Question: How to transmit gear-box positions in BAPLIE/MOVINS ?

Thank you!
