C. Exercise of the right to vote

Each shareholder, regardless of the number of shares he holds, has one vote in the reference college to which he belongs (respecting the principle of "one man, one vote").

A partner may only be represented by another partner.

A partner can only have one power.

A power given in blank is deemed to be given to the President of the session of the college.

1. Voting in the College

When he enters the meeting, he shall be elected by an absolute majority of votes as indicated below by a Chairman of the meeting.

Every associate has the right to participate in collective decisions and to vote in his college of affiliation, at each meeting of the college, in the following way:

- when the decision is taken at the General Meeting, the consultation is carried out in the knowledge of all the members present at the General Assembly, all colleges combined;
- within each college, the shareholders vote by a majority of the shareholders present or represented.

Associates are consulted by vote, by any appropriate means, college by college.

Voting for each resolution is obtained, within each college, by an absolute majority of the votes of the shareholders present or represented (ie 50% of the votes of the shareholders present or represented plus one).

For each college, the results of the majority vote of the members of the said college determine the meaning of the vote of the college in its entirety "for", "against" or "abstention".

A college may refrain only insofar as all the members of the said college who took part in the vote abstained themselves.

2. Multiple vote of each college within the Assembly or on consultation or resulting from the collective decision of the partners:

Each college shall have, independently of the capital contributed by the partners of the various colleges, in consultation or in the framework of any collective decisions, a plurality of votes, the number of votes allocated is as follows:

- the vote of the members belonging to the college n ° 1 (colleges of referents) is 50 votes,
- the vote of the partners belonging to college n ° 2 (college of associates who participated in the elaboration of the EDI, XML or other standards) is 20 votes,

- the vote of the members belonging to college n ° 3 (college of users or non-users "subscribers") is 20 votes.

The plural vote of a college is necessarily expressed in the sense of the majority vote of the associates of the said college determined according to the mode above.

In the case of a plurality vote, a college may never divide its vote, and all the votes allocated to a college are expressed in the same sense "for", "against" or "abstention".
