

SMDG Meeting No. 71

Wednesday, April 11, 2018 – SMDG Sub-Group MEETING – PARIS, BIC

09.00 – 09:15 welcome notes from BIC

09.15 – 09:30 welcome by our sponsor 1 and presentation of Bolloré port

09.30 – 09:35 welcome notes from SMDG

09.35 – 10:30 Presentation of SMDG latest status/ High level/ Budget Arthur, All

10.30 – 11:00 **Coffee Break** sponsored by Bolloré Ports

11.00 – 11:45 Presentation of the different topics of the day:

Context, objectives, actions and recommendations to debate following work since SMDG 71

- TPFREP (Michael) 5 minutes
- Container Messages (Paul)- 5 minutes
- Code Lists (jasmin) 5 minutes
- IFTSAI including ETA Pilot/ ATA Pilot(Closing dates) in DTM Segment in IFTMBF and (Michael) 5 minutes
- Baplie3,0 and movins (Jost) 5 minutes
- Web Service Work Group (Peter + Ray) 5 minutes
- Vessel Profile std files 5 minutes
-
- Organisation of the workshops of the day 5 minutes

11 00 – 12:30 Workshop session TBC

12.30- 13. 30 **Lunch Break** individual

13 30 – 15:00 Workshop session TBC

15.00- 15. 30 **Coffee Break** sponsored by Bolloré Ports

15 30 – 16:00 Workshop sessionTBC

15 30 – 16:30 Workshop session TBC

16 30 – 17:00 Workshop session TBC

17:00 -- 17:30 recap of the day and actions for the plenary session

Context, objectives, actions and recommendations, group members' confirmation to debate following day

Network event organised by SMDG at the Hotel

Specific agenda:

SMDG

Code List Items workshop (1h-1 H 30)

1. Terminal Facilities List

One terminal – different UNLOCODE's

Reason: multiple UNLOCODE's for the same port

→ metropolitan code, municipal code

In the SMDG Master Terminal facilities list there are currently 2 columns for UNLOCODE's: a leading one and an alternative one. This gives a certain flexibility to the users to adjust to the codes required in different areas, consortia, trades or services.

Special case China

Change of Chinese UNLOCODE's:

- Split up the codes for a metropolitan area (e.g. Shanghai) → 3 codes
 - airport, port and one code covering all functions for the metropolitan region
 - "Old" UNLOCODE's are now assigned to the airports
- For shipping: two codes remain (metropolitan + port)

Today: majority of the shipping industry still uses the old codes, which **means the airport codes**

Task: to find a rule for the leading code (first column) and the alternative code (second column) including consideration of the special case "China".

2. Handling Code List

Special properties (empty containers) - ITIGG Codes, SMDG codes

Discussion came up in connection with "special properties" for empty container handling.

To do: Review of

- ITIGG document “CODES FOR USE IN THE FREE TEXT (FTX) SEGMENT OF THE UN/EDIFACT CONTAINER MESSAGES (JM4/ITIGG/120/v16, update version: JM4/ITIGG/120/v17), which is referred to in COPARN, COPRAR
 - covers de4441/C107/FTX and HAN segment
- the SMDG handling code list created within the context of BAPLIE 3.x
 - de1131/C502/HAN

A proposal prepared by Heidi and Söhnke will be presented

3. Liner codes

- Duplicate codes (yellow)
- Rules (to be discussed)
 - No duplicates
 - Include or exclude NVOCC's?
 - Keep current 3 char codes / more char if NVOCC's included?
- Liners who are becoming aware of this codes list now want to change their code – since they have been using different codes

Wanted: a volunteer for revision and continuous maintenance of the list! Arthur propose himself

4. BIC Code LOCODEs (Inland Depot List)

Workgroup established – status review by Patrick/Jorn?

SMDG

Web Service sub group workshop(2 H)

1. SMDG Webservice Design Guideline / Basic Principles

A 2nd f2f meeting was held in Hamburg on 08 March 2018. As outcome of that meeting, please find attached the enhanced "Deliverables" document, with changes marked red. The to dos are clearly marked...

Please also find a first draft for the SMDG Webservice Design Guideline / Basic Principles.

Please read the documents to be prepared for our workgroup meeting in Paris on 11 April.

2. Next Steps:

Regarding the CCL/MMT to be used for description of input+output data of the Webservice. We did not have sufficient information at hand how to work with CCL/MMT. Meanwhile Peter provided a link to the UN/Cefact MMT (thank you Peter!) which is included in para 3 of the Deliverables document.

Nevertheless it still leaves some questions how to use in real life.

Ray and Peter, would eventually prepare a presentation on CCL/MMT usage for the Paris meeting? A conference call can be done before the meeting

3. Webservice pilot candidates

In Paris we should finally agree which will be the candidates, and also agree on the input+output data.

Discuss the reference implementation:

- in a sand box provided by Ray ?
- in a future SMDG portal? Arthur?
- SMDG could act as a “Proxy” - Peter please explain to the workgroup.
- Shall the Webservice pilots be executable in the sandbox, for public access?
From which database should they read?

4. SMDG Webservice Design Guideline Draft

We need input and feedback from the technical experts please.

Target for the Paris meeting

The above items and to dos to be agreed on, and the two attached documents should be finalized so that they be published on the SMDG website. This way we can attract more attention to this topic, and that is crucial for a new standard to become accepted!

And of course Roadmap and Timeline for the next months.

Your contribution will be appreciated!

SMDG Meeting No. 71

Thursday, April 12, 2018 – SMDG PLENARY MEETING – PARIS, BIC

Start: 09:30

1. OPENING & ROLL CALL Arthur
2. WELCOME BY OUR HOST AND PRESENTATION OF BIC
3. WELCOME BY BOLLORE PORT
4. Presentation from Bolloré port Yann Danvert
Directeur of Opérations Bolloré port (end of the morning/ beginning of the afternoon)
5. AGENDA FOR TODAY Arthur
6. MINUTES MEETING no 70 (st peterburg) Arthur
7. UPDATES OF SMDG STATUS/ High level/ Budget Arthur, Bruis, All

8. CODELIST and BIC ,
9. VGM (Stefano) and
VERMAS (Michael)

10. BAPLIE/MOVINS Jost
11. GEFEG/ EDI VALIDATION Arthur
12. CONTAINER MESSAGE Paul
13. IFTSAI Michael
14. TPFREP Michael
15. FUTURE MEETINGS Bruis
+ Intermediate meetings
16. ALL OTHER BUSINESS and PROCESS DAY OPENING All
 - a. Baplie, archive cleaning
 - b. EIPP SAB// short update on wed site hosting
 - c.
 - d. Solas vgm
17. CLOSING (16:30-17-30)

10.30- 11. 00 Coffee Break sponsored by Bolloré Ports
12.30- 13. 30 Lunch Break sponsored by ATseaconsulting
15.00- 15. 30 Coffee Break sponsored by Bolloré Ports

Network event organised by SMDG/ Atseaconsulting at the Hotel 17:30- 18:00

SMDG Meeting No. 71

Friday, April 13, 2018 – SMDG Intercompany Communication Process – PARIS, BIC

Start 09:30

- | | |
|--|--------------|
| 1. OPENING REMARKS | Bruis |
| 2. STATE OF THE INDUSTRY | Arthur |
| 3. AGENDA FOR TODAY | Bruis |
| 4. COLLABORATION and TRACKING PROCESS AND TOOLS All
