## Liner Codes

As per policy accepted by SMDG e.V. members ,  
SMDG e.V follow up on the following methodology:

1/ Synchronisierung our master liner codes with BIC SCAC codes for all carriers as much as possible especially for new codes requests.

This allows a lot of easy logical streamlining for the external management of your company data.

2/ when several codes are possible, use the most internally used code.

3/ when no BIC codes for Containers have not been published or requested, request one and use the most internally used code temporarily, to move back to step 1 once published.

# Liner code/ TMY business case code request

## 1. Initial Request

Good day,

I'm CFO of Transinsular (TMY) company, that works as umbrella company for 3 other shipping liner (shipowners):

Vieira & Silveira:

Mareaçor:

Transinsular Cabo Verde:

We are interested to open those companies as SMDG code, please advise.

## 4. Answer 1 from SMDG

MRA is available, please register it to BIC <https://www.bic-code.org/bic-codes/bic-code-application-form/> I thought about the same code VES for you unfortunately.

VES is not available by BIC, <https://www.bic-code.org/bic-letter-search/?resultsperpage=500&searchterm=V>

please look into this web page or the below extract under the V letter, to see what code will fit you the most.

# Evergreen VS Hubline

Hatsu use **HML** – whereas in our SMDG-list it is **HTM**

Propose to Evergreen to alter the SMDG liner code to HML, since it is obviously the code that Evergreen uses for Hatsu Marine worldwide

HML is available

Hubline to HBL from HML: Hubline BB cargo

UBL free

- BIC code: HMCU
- proposal to Eva and Hubline to change code
